Dear Professor Baggiolini:

In response to your letter of October 18, we are pleased to inform you that the Scientific Director of the Council for Tobacco Research, USA, Inc., will contribute \$2,500.00 to assist in the support of the Gordon Conference on Phagocytes to be held July 1-5, 1985. A check for this amount will be sent to Dr. Cruickshank.

We understand that these funds will be used for partial reimbursement of travel and residence expenses of invited participants and request that no part be used for support of participants representing private industry. We further would like to have a representative of this Council attend the Conference.

We are pleased to continue our support of the Phagocyte Conference; it is a very worthwhile area of research and we hope the meeting will meet your expectations.

Cordially,

Robert F. Gertenbach

RFG/ff
